Report On Incubation Drive

The Incubation Cell of Govindrao Wanjari College of Engineering & Technology, Nagpur conducted **“Incubation Drive by Qspider in association with Institute of Innovation Cell(IIC), GW CET ,Nagpur”** on date 18/10/2022 at 4:00Pm students of final Year of all the branches. The objective of webinar is to provide an opportunity to the student to get trained and placed by Training and placement company Qspider/Pyspider/Jspider.

The speaker for Incubation drive by Qspider was Mr. Girish Shivanna, Founder and CEO of Qspider/Pyspider/Jspider Test Yantra Software Solutions. Qspider is best-in class learning solution organization headquartered in India's IT capital, Bangalore. They offer a wide range of courses in the area of software testing and are official partners of the ISTQBR.

The session started at 4.00Pm on date 18/10/2022 by Mr. Girish Shivaanna with self-introduction. After brief introduction about Qspider he discussed about government rule of CSR (Corporate Social Responsibility) activity. Under the CSR activity Qspider conduct the Incubation program at college to provide opportunity to students for training and placements.

The resource person Mr. Girish Shivanna further discussed that at QSpiders , they ensure training is imparted by specialist with proven subject matter expertise and who have spent over a decade in their area of specialization. He also added that faculty are highly competent, skilled and dedicated to giving their best towards their professional development of our students. Besides training they also provide placement assistance to our students and most of the big corporates in the corporate world hire Qspider trained talent.

The resource person Mr. Girish Shivanna further discussed about the process of training and placement followed by Qspider, It includes webinar and aptitude test which is scheduled in 18/10/2022, Group discussion and HR interview is scheduled on 04/11/2022. He also discussed the technology on which students will get trained and placed in Top Notch Companies.
