# RECALL – WHILE APPLYING FOR ISBN

- ❑ ISBNs are assigned to text-based monographic publications (i.e. one-off publications rather than journals, newspapers, newsletters or other types of serials).
- ❑ Any book made publicly available, whether for sale or on a gratis basis, can be identified by ISBN.
- ❑ In addition, individual sections (such as chapters) of books or issues or articles from journals, periodicals or serials that are made available separately may also use the ISBN as an identifier.
- ❑ A same Title with Different Languages should have a unique ISBN.
- ❑ In case of Reprints, no separate ISBN is required, but a new Edition needs a new ISBN.
- ❑ With regard to the various media available, it is of no importance in what form the content is documented and distributed; however, each different product form (e.g. paperback, EPUB, .pdf) should be identified separately.
